

What challenges could Ecosystem Approach solve at Saami resource use level

Ole-Anders Turi, Sámediggi/Sámi Parliament

Bergen, Norway. 26th June 2019

Agenda

- Introduction – Sámi Parliament in Norway, Adviser. CAFF.
- Ecosystem Approach (EA)
- Sámi Community
- Implementation
- For the benefit of Sámi resource use

Ecosystem Approach

- It addresses the interplay between resource extractions, resource managers, conservation agencies, and indigenous users. Humans are part of the Arctic ecosystem. The EA is about taking a holistic approach which recognizes the interlinked nature of the ecosystem
- *The ecosystem approach to management has been described as a 'strategy for the **integrated management** of land, water and living resources that promotes **conservation and sustainable** use in an **equitable** way*

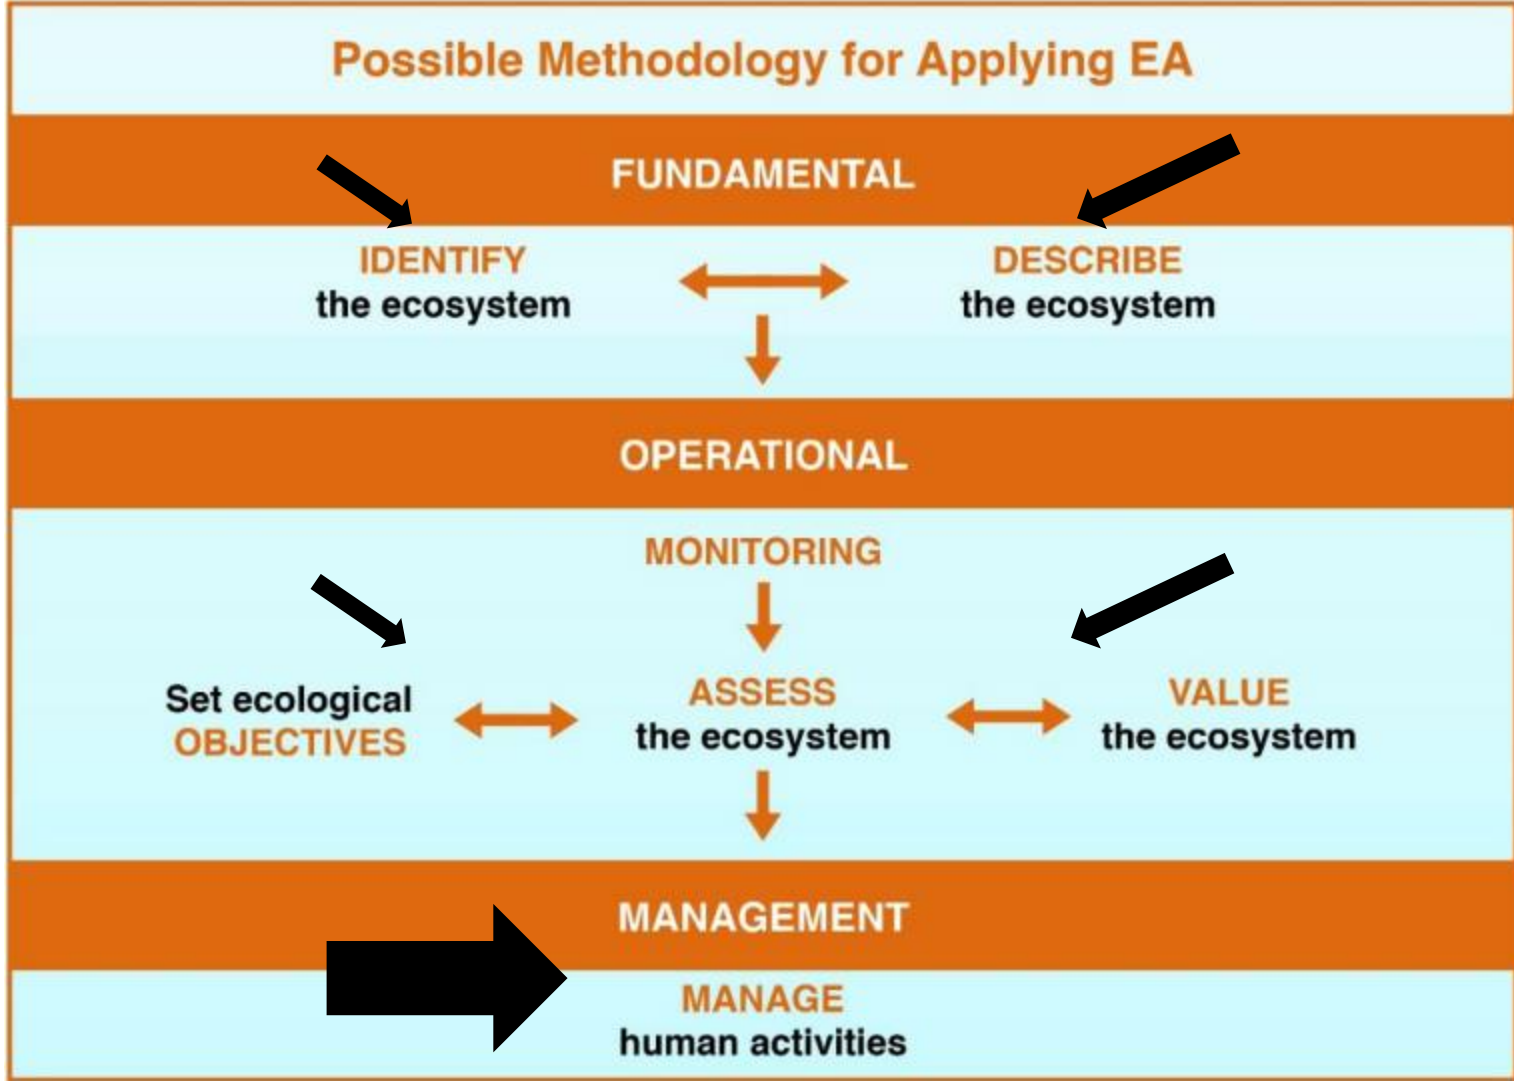

Sámi Community and national authorities

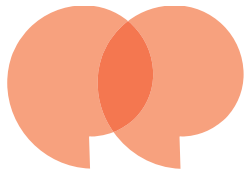

- Most of the Sámi people live in a unitary state
- Delegated
- Understanding of management
- Different views – common results

Public Administration

- Sector Specific
- Delegation of power and tasks
- Implementation done by states
