# PAME I-2020 Working Group Meeting 5-7 Feb

## *Agenda and Background documents*

### Background:

PAME is the focal point of the Arctic Council's activities related to the protection and sustainable use of the Arctic marine environment and provides a unique forum for collaboration on a wide range of activities on the protection and sustainable use of the Arctic marine environment. Its mandate is to:

*address marine policy measures and other measures related to the conservation and sustainable use of the Arctic marine and coastal environment in response to environmental change from both land and sea-based activities, including non-emergency pollution prevention control measures such as coordinated strategic plans as well as developing programs, assessments and guidelines, all of which aim to complement or supplement efforts and existing arrangements for the protection and sustainable development of the Arctic marine environment.*

Details on projects can be found in [PAME's 2019-2021 Work Plan](#) – and on the [PAME website](#).

All PAME I-2020 meeting documents will be posted on the PAME password protected area of the homepage: <http://www.pame.is> and login information will be provided to confirmed participants.

**Coffee breaks: 10:00-10:15 and 15:00-15:15 - Lunch breaks: 12:00-13:00**
